Instructions on Procedure for an Application for Service Connection Permit

1. If you have questions or trouble filling out this form please call the Public Works office at 798-6927 for assistance.
2. Please fill in entire application and provide a sketch of the lot showing names of adjacent streets and properties.
3. Return completed application (*along with deposit*) to: Municipality of West Hants, 76 Morison Drive, P.O. Box 3000, Windsor, Nova Scotia B0N 2T0.

Note: The connection fee will be waived if there is already a service lateral at your property line.

4. *Do not* commence work on the project until your approved application has been returned to you and you have contacted the Public Works Office *at least* 24 hours prior to beginning the project.

Guidelines for Lateral Installation

1. All sewer material shall be 4" PVC DR35 complete with intricate rubber gaskets. Water pipe shall be ¾", 160 lb poly.
2. New piping shall be extended from the end of the public portion up and inside the foundation wall and terminate with a clean out wherever possible, (*you may require a backflow valve refer to National Building Code*).

No other piping system shall be connected to the sanitary waste disposal system either inside or outside of foundation wall. Piping systems only servicing lavatories, kitchens and laundry facilities are to be connected to the disposal system.

Piping shall be graded at a minimum of 2 percent to the public connection and properly bedded and backfilled only after inspection by the Municipality.

3. Prior to backfill, all water and sanitary sewer laterals must be inspected by the Municipality. Failure to have this inspection will mean, it must be dug up. 24 hours notice is required prior to commencing work. (Please call 798-8391).

Permission is hereby granted to connect to the sewer and/or water system as outlined above.

NOTICE

CHANGE IN FEE STRUCTURE

For connection to Municipal Water Systems:

FALMOUTH - THREE MILE PLAINS/WENTWORTH

Effective July 1, 2007, the applicant is required to pay the necessary excavation for the laying of the water service pipe, backfilling and replacement of the street and sidewalks surfaces from the water main in the street to the property line. The Utility will do this work and invoice the applicant at cost.

For connection to Sanitary Sewer:

Effective February 14, 2006, the applicant is required to pay the actual cost of excavation for the laying of sewer pipe, backfilling and replacement of the street and sidewalk surfaces from the main to the street line. A \$1,000.00 deposit must accompany the application, with the remainder due before water service is extended.
